STATOTHR

I apologize deeply for my delay in answering your letter of 28 April 1951. I was hoping that business would bring me to New York earlier, but it now looks as if I shall not get up there for an indefinite period.

I have sent the summary of your business experience to the personnel people asking that they get in touch with you, preferably through a representative in New York. However, if you wish to come to Washington, I shall be very glad to see you and could perhaps arrange some interviews.

No particular time is better than another for me, so if you wish to come please give me a day or two's notice so I can arrange to make myself available.

Very truly yours,
